

Guidelines for Photo Montage

Clients Names: _____

Date of Event: _____

Location of Event: _____

There are 2 ways that you may have your slideshow play during your event. Please hand in 60 photos max for your montage.

1. Loop Montage – This montage will loop all your photos in a continuous manner throughout the whole event. We will casually play the photos in the background throughout the night.
2. Music Montage – This montage will play along with synced music of your choice and we will make an announcement for all your guests to be seated and then play the slideshow accordingly (usually during dinner).

Notes: Please provide your digital files on CD, USB memory stick, or dropbox. Please make sure to scan all photos in JPG format at 300 dpi. Assign the photos a unique filename so they appear in the order you would like them displayed in the montage.

* If you choose the Music Montage feature please number your photos in the correct order you would like them displayed during the slideshow. For loop feature the photos do not have to be in any particular order.

* Photos must be handed in 2 weeks prior to the event.

Music Choice: (Usually 2 songs – Please include Title & Artist)
